Step 1: Find a suitable location
Step 2: Call SGA @ 800.999.5278
Step 3: Just Add People.*

WHY WAIT?

**Stadiums and Arenas take years to build.
Have large events on your property today.**

SGA Production Staging

SGA is the industry leader in the design and execution of scalable event seating and staging solutions. Our mission is to enhance the quality of the audience experience for our clients.

Venue Creation Solutions

The SGA Stadium in a Box concept is an idea that your next event can be anywhere you have empty space - whether it's a parking lot, field, or convention center, the configurations and applications are limitless.

What is Stadium in a Box?

Stadium in a box is our way of bringing you a turn-key, code-compliant, portable, best-in-industry seating system. As a rental company, our planning and logistics departments are tailored to this type of service, allowing you to focus on the main attraction, whether it be a concert, an outdoor film festival, live sports or a marketing opportunity.

What do Clients Say?

“SGA provided seating for our 10,000 seat outdoor venue. There wasn’t a bad seat in the house. SGA delivered in every way!”
Henry Kubin, Production Manager, Soaring Eagle Casino & Resort

“Many thanks for your assistance throughout the project. Your team has been great to work with and your product is first class. We very much hope that we will have the opportunity to work with SGA again in the future.”

Andrew Clemence, CEO, Pirates Mutiny

“SGA did a great job on our site. Their grandstands met all Florida state and municipal building code requirements. Passing inspections was never an issue.”

- Dave Meyers, Site Coordinator, Live Nation

Design

Safety. Building Codes. Fire Marshalls. Sightlines- If you've run across any of these in your event planning, you've come to the right place. We take the guesswork and liability out of the equation and provide you with code-compliant, over-engineered designs that you can use to plan your event. From cocktail napkin to a fully rendered representation, our in-house capabilities are at your disposal. Each salesperson works closely with you throughout the process, providing insight, experience and a singular point of contact. PDF files allow seamless to-scale viewing, and available full "D" size drawings show an even more detailed view.

Logistics

Our full-time planning department takes the headaches out of the details, letting you focus on your event, not the needs of your vendor. SGA handles our own flights, hotels, transportation, and shipping. Your gear arrives from our fleet of local and nationwide delivery trucks and is off-loaded, installed and built. Our nationwide warehouses provide access to both coasts and the Midwest. Major metropolitan centers, Hawaii, international jobs in Mexico, Canada, the Caribbean and even China round out our capabilities.

Execution

The feedback we get from our customers is that our execution is flawless. They can sleep while we're installing and come back to a job done right the first time, and on time. Whether we're working for a venue, an event producer, or an end-user, we provide a level of no-excuses service that is unprecedented in this industry.
